## Second woman takes office as president of Rotary International

Stephanie Urchick, member of the Rotary Club of McMurray, PA, became the second woman to take office as president of Rotary International on July 1, 2024. During her one-year term, Urchick will lead the 119-year-old membership service organization in adapting for future success as Rotary's 1.4 million members around the world develop and implement sustainable, community-driven projects that fight disease, promote peace, provide clean water, support education, save mothers and children, grow local economies, and protect the environment. More than US\$5.5 billion has been awarded through The Rotary Foundation—Rotary's charitable arm that helps clubs work together to perform meaningful, impactful service—to support these initiatives over the last 100 years.

In order to ensure that Rotary membership is a compelling option for those who have a heart for service and fellowship, Urchick is urging clubs to assess their strengths and areas for improvement while also encouraging them to embrace different meeting formats and membership styles as they work to mirror the communities in which they exist in terms of gender, age, culture, socioeconomic status, and more.

"Embracing different viewpoints and creating peaceful, welcoming, and inclusive societies is at the heart of Rotary's work," said Urchick. "As president, I will work with clubs to prioritize advancing peace by helping to create the conditions for stable and resilient societies in which people can thrive."

As president, Urchick will also oversee Rotary's top goal of eradicating polio. Alongside its Global Polio Eradication Initiative partners, Rotary has achieved a 99.9% reduction in polio cases, and contributed more than US\$2.7 billion and countless volunteer hours to protect 3 billion children from this paralyzing disease.

Urchick holds a doctorate in leadership studies from Indiana University of Pennsylvania. A Rotary member since 1991, Stephanie has served Rotary in many roles and capacities. Her service includes building a primary school in Vietnam; installing water filters in the Dominican Republic; mentoring new Rotary members in Ukraine; coordinating a Rotary Foundation grant project in Poland; and leading efforts to formulate and adopt Rotary's Action Plan, a strategic road map that will help bring even more people together to create lasting and positive change in an evolving world.
