## Water, Water Everywhere But Not a Clean Drop to Drink

By Debbie Hale

District 5230 Governor 2023/24

Buenos dias! As I write this article I'm sitting on the patio in the Hotel Posada in Cobán Guatemala, water bottle by my side, enjoying the pleasant evening. A bottle of water also sits on the sink for me to use when brushing my teeth. I haven't eaten a salad for a week because we have been warned not to eat raw vegetables, or fruit that hasn't been peeled, because they may have been rinsed in contaminated tap water. Most of us in the United States take for granted the ability to turn on the tap to get a glass of clean water to drink whenever we want. Here it's not a myth, it's a real threat. A third of our group has experienced mild to severe gastrointestinal distress and one even had to go to the hospital to be rehydrated.

## Collaborative Service Projects Provide A Sustainable Initiative in Guatemala

Rotary Club of Visalia Sunset

Scholarships, school supplies, machetes, and hand-woven bags... what do these all have in common? Rotary, of course! For quite a few years Rotarians from Tulare Sunrise, Tulare Noon, and Visalia Sunset have joined forces to make multiple service projects in Guatemala come to fruition. Rotarians taking part in the projects for the first time, current and past Youth Exchange students, and seasoned project veterans share a long day of travel to arrive at the beauty of Guatemala; the sights, smells, and dramatic changes from past visits are always awe-

inspiring.
