“We then request and express the intention to be considered in the 100 Years Project, 100 shares by Mexico.”

1) INFORMATION OF THE APPLICANT.

Rotary Club Cancun Bicentennial A.C.

Name: Club Rotary Cancun Bicentenario A.C.

RFC: CRC1103169D7

Address: Calle punta Cocono mz 25 lt 17 sm 24 dpto D2 R6 cp 7500 Cancun Quintana Roo México

District and Club Number: 4195th Club 82987

2) PROJECT NAME

Medical equipment for the dispensary and health center of LEONA VICARIO, Municipality of Puerto Morelos, Quintana Roo, Mexico

3) PROJECT OBJECTIVE

Provide the necessary medical equipment for the proper functioning of these health centers. In this specific case, to provide a transfer incubator, which can become a vital importance of life in the case of infants, since this community is 25 minutes from Cancun or Puerto Morelos.

PROYECTO
100 años, 100 acciones por México

4) PROJECT DESCRIPTION, SHORT AND LONG TERM DISSED

WHAT DO WE WANT TO DO?

To Implement a comprehensive project that addresses two of the axes within Rotary International's areas of interest such as Disease Prevention and Treatment and Maternal Child Health.

We intend to contribute by equipping the Gynecology-Obstetrics area of the health center, as well as to set up extended medical testing laboratories, early detection services for some diseases and expanded medical emergencies.

We have initiated efforts with the Secretary of State Health with whom it is necessary to coordinate to have greater impact and effectiveness in the development of the project.

Working hand in hand Club Rotary Cancun Bicentenario A.C., Secretary of Health, State Government, socially responsible private companies and associations such as those you have to preside over.

We request that this project be analyzed and considered its feasibility, to obtain resources of the program "100 years, 100 actions by Mexico", which you are promoting.

It should be mentioned that this equipment will be used only by medical personnel who are hired by the Secretary of Health of the State of Quintana Roo specialized in them, this will be given as a contract that specifies that we can go to do reviews at any time and are responsible for their good use and care as well as the required maintenance that occupies the equipment(s); without this implying an extra expense for the club And if misuse were found, they would be immediately withdrawn.

It should be mentioned that this equipment will be used only by medical personnel who are hired by the Secretary of Health of the State of Quintana Roo specialized, this will be given with contract that will specifies that we can go to do reviews at any time and they will be responsible for their good use and care as well as the required maintenance that occupies the equipments; without this implying an extra expense for the club and if misuse were found, they would be immediately withdrawn.

We will request a quote from at least two suppliers, assuring that it is new, modern medical equipment and with the best market conditions.

We know it's a bit of an ambitious project, but it will benefit an entire community, and we can only do it with the sum of many wills.

WHAT EQUIPMENT DO WE WANT TO DONATE?

After several visits and interviews the needs that we detect the most to be able to carry out this project are:

Tocardiografo, radiant heat cot, transfer incubator, advanced delivery bed, 3 hospital beds, resuscitation table, vital signs monitor, sterilizers, equipped red crash cart equipment.

In the specific case of this request it is for the transfer incubator.

Bhelius Eritea mark (Annex 1.1 specification clinical sheet), (Annex 1.2 listing of the same mark on site

5) EXPLANATION OF THE SUSTAINABILITY OF THE PROJECT IF IT HAS IT

Why?

Because :

It defines that health is a state of complete physical, mental and social well-being and not just the absence of diseases, conditions or ailments.

Health is an undisputed, non-transferable, fundamental, basic and applicable right for every human being.

In our Magna Carta we can find the right to health in article 4 and it is also stipulated in article 25 of the Declaration of Human Rights, since without it we cannot access other more complex rights, such as social, educational , economic or political.

Health is also a matter of national security and peacekeeping in any nation

Health IS our most valuable asset.

That's why the Rotary club Cancun Bicentennial and Rotary International, put special emphasis on undertaking activities that help eradicate and prevent some of the many conditions that remain in the world, and especially on preserving life from the beginning.

And today we are sure that this community is most in need in this area.

How could 100-year-old 100 shares help us?

We attach a video where you can observe, that this even rural community, only has a single ambulance and if an emergency arises you should move patients to Cancun or Puerto Morelos which takes about 20 minutes as long as the road is free and without incident, time can become vital in these cases, there are times when you have to attend to preterm births, unfortunately there is a high rate of teenage pregnancies, so we consider that an incubator could be of great utility, to give the would be able to stabilize infants before moving them to another hospital if needed. .

That is why we put before you, consider us in the tender for donation.

Our club, has several doctors among its ranks, who have helped us determine these needs and are obviously committed to give continuity to this project, since they have all the necessary experience to do so.

6) DIRECT AND INDIRECT BENEFITS DISMISSING YOUR VULNERABLE SITUATION ADJUSTING IMAGES.

Health Services.

1625 inhabitants of that community, have access to health care by social insurance in Cancun or Puerto Morelos, also have a Rural health center that offers basic consultation and first aid services, as well as a health care center state health that has a very large and adequate facility to provide many services, but lacks the right medical equipment for the needs of the population, and that prevents its proper functioning
Education.

They have a preschool, 2 Elementary Schools and 1 Institute of Technology where community courses in basic education are taught in older adults. All teachings are taught in Spanish.

Economic socio-study of its inhabitants.

In Leona Vicar there are a total of 1233 households. Of these 1200 homes, 201 have a land floor and 533 consist of a single room, 959 have sanitary facilities, 797 are connected to the public service and only 1085 have access to electric light. The economic structure allows 72 homes to have a computer, 724 to have a washing machine and 916 have a TV.

Population Census:

The total population of Leona Vicario is 6517 people, of whom 3366 are Men and 3151 are Women. The fertility rate is 2 Children per woman in a range of 14-42 years. Of the total population, 38.61% come from other entities in the Republic. 6.54% of the population is illiterate (5.23% of men and 7.93% of women). The grade level is 6.88% (7.16 in men and 6.58 in women). 45.83% of the population is indigenous, and 18.95% of the population speaks an indigenous language. 0.51% of the population does not speak Spanish. 32.76% of the population over the age of 12 is employed (48.87% of men and 15.55% of women) Citizens' ages are divided into 2397 minors and 4120 adults of whom 324 are over 60 years old.

Commercial activity.

Its main activity is the sale and cultivation of tropical plants. As well as the production and sale of coal. 70% of women are housewives and 30% have some kind of regional food sale.

Background

Quintana Roo is the state that grows the most in population level Latin America, growing 14% annually, at this rate it is difficult for any service offered to citizens to go at the same speed, that is why you have

PROYECTO
100 años, 100 acciones por México

to work together, companies , civil society and government to meet the many and very multiple needs of the entire population.

We being sensitive to these needs and with the certainty that health is one of the most important things for life, because without health we can do nothing.

we intend to equip this health centre, because already better equipped it will be able to provide more services and have some other itinerant health campaigns, which would improve the quality of life of all the inhabitants of that town.

We intend to equip this health centre, because a better equipment it will be able to provide more services and have some other itinerant health campaigns, which would improve the quality of life of all the inhabitants of that town.

7) PROJECT LOCATION

Leona Vicario is located in the Municipality of Puerto Morelos in the State of Quintana Roo Mexico.

For GPS coordinates: Longitude (dec): -87.202778 and Latitude (dec): 20.992222. The town is located at a height of 10 meters above sea level.

In 2015 it became an official part of the new Municipality of Puerto Morelos.

8) AREA OF INTEREST:

Prevention and treatment of diseases

Maternal child health

HOJA DE ESPECIFICACIONES

• Incubadora para infante

• Características:

- **Pantalla TFT WVGA de 7"** a color de retro iluminación LED con touch screen capacitivo en montaje superior de **alta accesibilidad** y **gran visibilidad** gracias a su giro de $\pm 90^\circ$, interfaz de usuario con iconos intuitivos y textos en español.
 - Modos de control aire e infante con despliegado de temperaturas programada y medida.
 - Alarmas de temperaturas alta y baja de aire e infante, falla de flujo de aire, sobrecalentamiento y de falla de sistema con silenciador de alarmas.
 - Despliegado de humedad relativa medida y de potencia del calefactor.
 - Bloqueo de teclado para evitar cambios accidentales en la programación.
- **Capelo desmontable** de alta accesibilidad con cúpula termoformada de alta resistencia, **4 paneles abatibles** con **6 accesos** de manos y **16 puertos** para cables y tubos.
- **Habitáculo de infante** con **colchón suave lavable** de **60 x 33 cm**, **atóxico**, **antiestático** y retardante a la flama, con posiciones trendelemburg y contratrendelemburg de $\pm 10^\circ$ operables a ambos lados de la incubadora y espacio para cartucho de rayos X.
- **Distribución de aire** en los **cuatro lados** de la incubadora con **laberintos** de coextruido de **ABS** y **PMMA** con **antibac[®]** de fácil remoción para su limpieza y desinfección con moto ventilador silencioso de bajas revoluciones y alta durabilidad, y sistema de humidificación pasivo para alcanzar una **humedad relativa mayor al 50%** con depósito removible para su limpieza.

- **Base rodable** con columna **extruída** en **aluminio**, rieles para incorporar accesorios diversos, con cuatro ruedas de **5"**, dos con freno total, cajón ropero y charola de accesorios removibles y poste porta soluciones de altura variable con dos ganchos.
- **Construcción robusta** sin piezas frágiles, de operación simple y fácil limpieza.
- Bajo costo de adquisición, operación y mantenimiento.
- Garantía por un año en todas sus partes.
- Soporte técnico, de consumibles y de refacciones.
