

GLOBAL GRANT 2464063

Cleft Lip and Palate

Las Torres Satellite D4170 – Mexico Host Club
District 6510 IL – International Sponsor District
July 1, 2024

Community Needs

- About 1 in every 750 babies is born with cleft lip with cleft palate in Mexico.
- The process to cure these babies begins at 10 weeks of birth and ends at 18 - 20 years of age with the following process:
 - a. Maxillofacial Surgery
 - b. Maxillofacial orthopedics
 - c. Orthodontics
 - d. Pediatric Dentistry
 - e. Psychology andothers...

Community Needs

- In Mexico, 38% of the population does not have public or private health services (47 million people).
- For these families it is impossible to pay for the medical services necessary to cure their children. It is common for parents to lock up their children in their homes.

Global Grants - Area of Focus

Disease prevention and Treatment

Global Grants - Area of Focus

Disease prevention and Treatment

- The project meets eligibility parameters 4 and 5 of the area of interest of Prevention and control of non-communicable diseases, which say 4 Supply of medical equipment and 5 Surgical interventions to save lives or correct congenital diseases, as long as they include care and follow-up appropriate postoperative period of the beneficiaries

Sustainability

- We have an alliance with CILAP, which is an association of altruistic doctors who are the ones who care for children.
- We provide service the last Saturday of the month in a government clinic in Metepec Hidalgo a rural area of high marginalization and where many poor people arrive from neighboring states.
- We have 35 years of experience in this project, during this time we have benefited more than 3,000 children in the community (average 85 child per year). H2H has already support us with one GG 5 years ago in this same site.
- The treatment of children is comprehensive, we attend to all their health needs caused by the problem of cleft lip and palate.

Sustainability

- Campaign to change healthy habits of healthy eating, sanitation and hygiene and drug addiction prevention
- The main costs of the program are
 - Medical equipment and supplies necessary for surgeries
 - Material for dental treatment
 - Now we are including the creation a video promote the support program, the causes of the disease and how to avoid it and to promote the image of Rotary
