Rotary Helps Disaster Victims

Severe storms, an earthquake, and hurricanes are wreaking havoc across the globe from the United States and Mexico to South Asia and Africa. The Rotary Foundation and Rotary clubs in affected areas are helping bring emergency aid to battered communities.

The Rotary Foundation is collecting emergency relief funds to help victims of Hurricanes Harvey and Irma.

Severe rainfall caused historic flooding along the Texas coast, including in Houston, the fourth largest city by population in the United States. About 6.8 million people have been affected by the hurricane.

Meanwhile, Hurricane Irma is in the Caribbean and headed for Florida and the Atlantic coast of the United States. Already, the storm has directly affected 1.2 million people and millions more are in its path.

“The power of Rotary is in the Foundation's ability to pull help from around the world while local clubs provide immediate relief in their own communities,” says Don Mebus of the Rotary Club of Arlington, Texas.

Rotary districts along the Gulf Coast of Texas and Louisiana are collecting emergency relief funds and providing immediate aid to flood victims.

The most powerful earthquake in a century hit the southern coast of Mexico Thursday. At least 61 people were killed in the 8.1-magnitude quake. Rescue and relief efforts are expected to be hampered by floods and a dangerous storm surge off the Gulf of Mexico as Hurricane Katia moves into the area .

In Sierra Leone, torrential rains and a mudslide in August has killed more than 500 people and destroyed nearly 2,000 homes. An orphanage where more than 60 children slept was one of the buildings swept away in the slide on the outskirts of Freetown, Sierra Leone's capital. More than 600 people are still missing.

As estimated 40 million people across India, Bangladesh, Nepal have been affected after massive floods hit the area last month. UNICEF estimates 31 million people in India have lost their homes, and 8 million people in Bangladesh and 1.7 million in Nepal have been affected.
