Program

Members **Shyloh Wehner** and **Christine Zack** gave their Craft Talks. Both women are new members to RCGV, and both women are definitely People of Action.

Shyloh Wehner started the program with a presentation on her company [Varigate Group](#) and what they do to improve a company's productivity. She gave a brief history of her experience working as a Director at Zappos, and then jumped into a slide presentation on how she uses neuroscience to help solve company's thorniest people problems. She quizzed the group on both gender and generational tendencies and behaviors. She also briefly touched on behavioral awareness and how it can affect workplace reality. It was a very interesting craft talk that whet everyone's appetite and got them thinking about their own behaviors.

Christine Zack concluded the program with a presentation on her company, [The AMD Card](#). Christine started her presentation by giving the group her background in law, elder care, and skilled nursing. It was this background, and the digital health aspect of the card, that got her to join the company. She showed a brief video on the company and what exactly the card (and new app) does to help people in the event of a medical emergency. She also let the group know what the company is doing to make a difference in the local community through free health events and screenings. Christine is also on the Board of Trustees for The Shade Tree, a shelter for women and children.

The Raffle rounded out the meeting, with a pot of \$109. Christine Smith did the right thing when she pulled the Jack out of the stack of cards. She then led the club in the 4-Way test, and the meeting was concluded at 8:17 a.m.
