Rotary International News

A year after Hurricane Maria tore through Puerto Rico, local Rotary members continue to rebuild homes and lives

With 155 mph winds and torrential rains, Maria was the strongest hurricane to hit the island in more than 80 years. Mayagüez, Puerto Rico is home to 75,000 people and to the island's second-oldest Rotary club after San Juan. In the past, the club carried out smaller projects, but the massive devastation caused by Maria motivated members to do more to help their neighbors, especially the very poor.

I've been a Rotarian for 40 years, and I've never seen so much help come from other Rotary clubs," Rotarian Orlando Carlo says. After Hurricane Maria, clubs across the United States wired the Rotary Club of Mayagüez about \$50,000 directly; more than half of that money came from the Rotary Club of La Jolla Golden Triangle in California and a group of clubs

in New York. As club treasurer, Rivera keeps track of every receipt and sends updates back to the donor clubs. A year after Maria, the club had helped 22 families repair their homes, mostly replacing roofs that were blown off by the hurricane.
