Masterbrand Signature – MBS

Masterbrand Signature (1), Masterbrand Signature simplified (2).

The top version is the official logo of Rotary International. It combines the wheel with the word “Rotary” to the left for visibility and recognition. The Masterbrand Signature cannot be altered in any way.

Rotary recommends using the simplified version, #2 if the logo will be smaller than 1.25 cm (0.5 inches) or will be embroidered or screen printed.

District 6360 Logo

We use the name on our district in the logo below the Masterbrand Signature. Because the word “Rotary” is already in the logo, you don’t need to repeat it.

The district name always appears on the same side as the word Rotary. It should align on the right with the “y” in Rotary. The position and the size relationship between the word Rotary and the wheel can’t be altered.

The Brand Center is the place to go for all things Rotary brand related and it is the only choice for authorized use of the Rotary name and associated logos.
