

The Trail

Huguenot Trail Rotary Club

August 8, 2018

Coming Events

August

- Aug. 8 Dr. Bonnie Price
Bon Secours Forensic Nursing
- Aug. 15 Bob Shumar, Director
Boys State
- Aug. 22 Karen Liu
Travis Manion Foundation
- Aug. 29 **SOCIAL AT OUTBACK**
12:30 pm LUNCH
NO FORMAL MEETING
Free Bloomin' Onion
Order lunch from the menu
BRING A FRIEND!

September

- Sept. 14 **Food Distribution**
Chesterfield Food Bank
5:30 pm

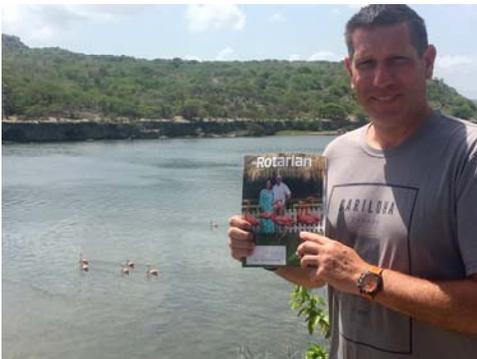

The Rockettes have no worries, according to Gordon! But, it was fun doing high (?) kicks to show off our tennis shoes in support of DG Susan. She met last week with our board of directors and gave a very inspiring talk at the general meeting.

Bright Beginnings Shopping Trip

Great turnout of Rotarians, families and friends

Where in the World is The Rotarian Magazine this time? In Bonaire, diving with Mark and his family!

Did you know?

The very famous Mary Poppins song "A Spoonful of Sugar" was actually inspired by the polio vaccine.

Songwriter Robert Sherman was having a hard time coming up with a catchy song for Julie Andrews hit movie. Inspiration struck him one night when his children told him all about their polio vaccine they received at school. They said it didn't hurt because the polio vaccine was placed on a sugar cube.

RI President Barry Rassin would like all Rotarians to start reaching out to people who may not know about Rotary. We need to represent our communities in terms of age, gender, ethnicity, and background. Huguenot Trail Rotarians can help build Rotary's membership so we can be more effective People of Action. Make it your goal to invite a guest to one of our meetings. Lunch is on us for their first visit.

Linda Cozad
Membership Chair

Smiles-A Rotary Gift

Ricardo Roman was shopping with his wife at a department store in Chile when a woman in her early 20s approached him. He didn't recognize her, but there were two good reasons: he had last seen her more than a decade earlier-and her smile had changed dramatically.

Roman, a member of the Rotary Club of Renaca, Chile, is the national coordinator of a program that has helped thousands of children in Chile with cleft lips, cleft palates, and other birth defects, including this stranger who now wanted to give him a hug.

She told me, "This is my Rotarian smile," he recalled.

The project got its start in 1993

when San Francisco Rotarians sponsored a medical mission that performed reconstructive surgeries in Chile. That was the beginning of Rotoplast, a program that evolved into a non-profit organization that has since sent teams to 26 countries.

In 2004, Rotarians in Chile assumed leadership of the program in their country. Over the years, it has been expanded to include breast reconstruction for cancer patients.

"It's a great commentary on Rotary that you've got people in a Spanish-speaking country and people in an English-speaking country working together

to get things accomplished," said James Lehman, a plastic surgeon who joined the Rotary Club of Fairlawn, Ohio, after working with Rotarians in Chile.
