

As President of the Seattle International District Rotary for the year 1989-1990, there are two achievements that I would note. First, was the initiation of the Club's International Citizen of the Year Award. That award identifies a man or woman in our community whose conduct exemplifies the goals of our Club.

Second, was the \$5,000 contribution to the Rainier Vista Boys & Girls Club for a multi-purpose sports field. Our contribution was the first which the Boys & Girls Club received and led to the creation of a matching fund of \$150,000 of a total \$300,000 budget. In May of 1992, with Ahmed Jaddi and Gary Ewing, I attended the groundbreaking ceremony. This facility, which is the first playfield to be located within a housing project, will be an important addition to the development of boys and girls in Southeast Seattle.
