

## Major Projects Committee Procedure Goals

The procedures are intended to:

Reach out to community organizations and **“partner”** with them on a project they think benefits their needs, serves the community and aligns with a cause or mission of Rotary.

Build ongoing awareness, relations and recruitment opportunities within those partner organizations as well as help our Public Image initiative.

Enhance membership involvement and engagement—we will need volunteers to serve as liaisons to engage with each of the listed “community partners.” (on the last page of the attached file). In turn, we expect they will commit representatives to also oversee the project.

Engage the Board and membership in prioritizing the top requests so that we can allocate resources and volunteer labor to the winners.

Encourage the use of Rotary shirts, labels and banners when working on the projects and leave our symbol on the product to show Rotary’s enduring contributions.
