

Rotary Club Once Again Achieves its Goals for Financial Contributions to The Rotary Foundation Programs

Story by Ed Kolybaba on Jul 02, 2022

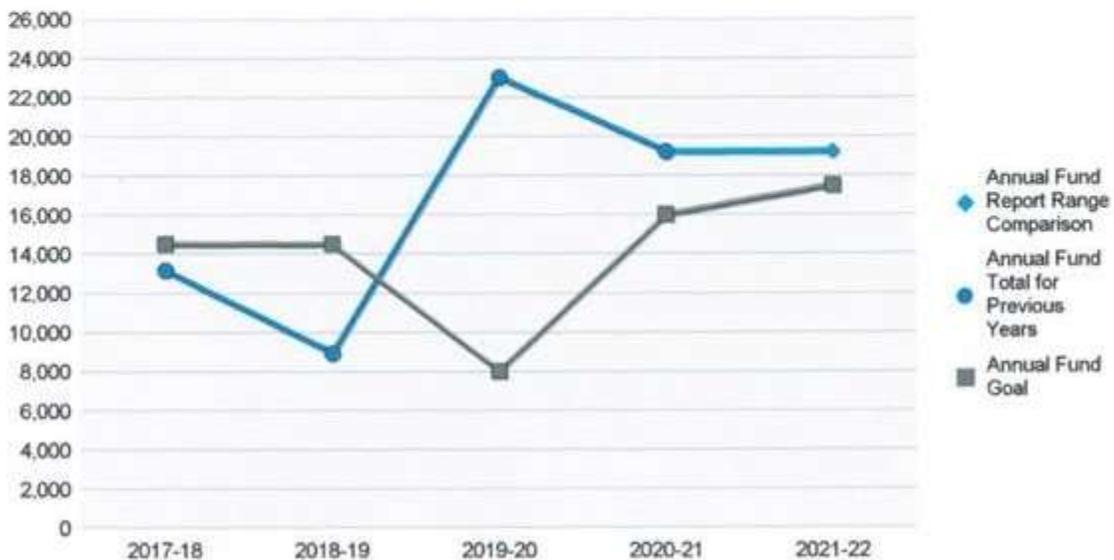

It is no surprise that the Rotary Club of Kelowna Sunrise has increased its member contributions to the Annual Fund and PolioPlus Fund of The Rotary Foundation (TRF) for the 2021-22 Rotary Year; thereby, achieving its financial goals to the Foundation for the third year in a row.

While just over fifty percent of the members contributed to either fund of the Foundation over the course of the Rotary Year, the club was still able to achieve the goals which continue to increase five percent each Rotary Year.

The Annual Fund goal, fixed at US\$17,500 for 2021-22, was surpassed by US\$1722 for a total giving of US\$19,200, at a per capita giving of US\$263.

Annual Fund of TRF

Additionally, the PolioFund funding goal was achieved, in this case at 119.9 %. The goal set at US\$3,025 was met and surpassed late in the Rotary Year with total donations of US\$4,764.51.

While a goal was not set for donations to the Permanent Fund of TRF, US\$30,028.21 was donated to this Fund by several club Rotarians.

The final contributions for all funds set a new record for club member donations in a single Rotary Year. Thanks to the generosity of the Rotarians who supported one or more than one of the funds of TRF, a total of US\$ 54,014.72 was donated to The Rotary Foundation to provide humanitarian service around the world.
