OLD BUSINESS:

- **EMERGENCY TRAILER**—Ed has reached out to Dan Crawford to arrange delivery. The City will provide secure storage. We were given an inventory list of what's currently in the trailer. We will want to obtain by donation if possible additional chainsaws—recommended at least 2 x18" and 2 x 24" chainsaws along with appropriate safety gear. We will also want to stock up on non-perishable food and water. Ed is going to reach out to all other Rotary clubs in our District to see if they want to participate in this project. There will be a Disaster Relief Coordinator that will call us when service is needed. We will not be responsible for communication/coordination. John suggests that there be a checklist on clipboard in trailer to note who is checking out and using equipment.
- **HAPPY DELL DONOR SIGN**—Ed reports that the sign design is done, approved and is being made.
- **TENNIS/PICKLEBALL COURTS**—The courts are currently being resurfaced. Ed is concerned that the job needs to be finished on time due to our Rotary Foundation grant. Jesse assures that the job will be completed as planned
