Applications will be accepted in the month of July on District 5500's new DACdb database. District Grants are administered by D5500 with funds that D5500 Rotarians contributed to the Rotary Foundation's Annual Fund three (3) years ago. They are used to fund small-scale, short-term projects that address needs in local and international communities. Within D5500, district grants are specifically intended to promote humanitarian club projects that involve the active, personal participation of D5500 Rotarians. D5500 District Grants must be directly related to the mission of The Rotary Foundation (TRF) and approved by D5500.
