

DONOR NETWORK OF ARIZONA

Thanks the Rotary Club of Oro Valley

Julia.Young@dnaz.org (602) 301-6108

**We make the most of life through
the gift of organ and tissue donation**

What is DNA's role in donation?

- Federally designated, not-for-profit Organ Procurement Organization (OPO)
- Cover the entire state of Arizona
- Main office in Tempe and satellite office in Tucson
- Support donor families during the donation process
- Collaborate to preserve the option for donation
- Determine medical suitability for organ, eye and tissue donation

HOPE LIVES ON

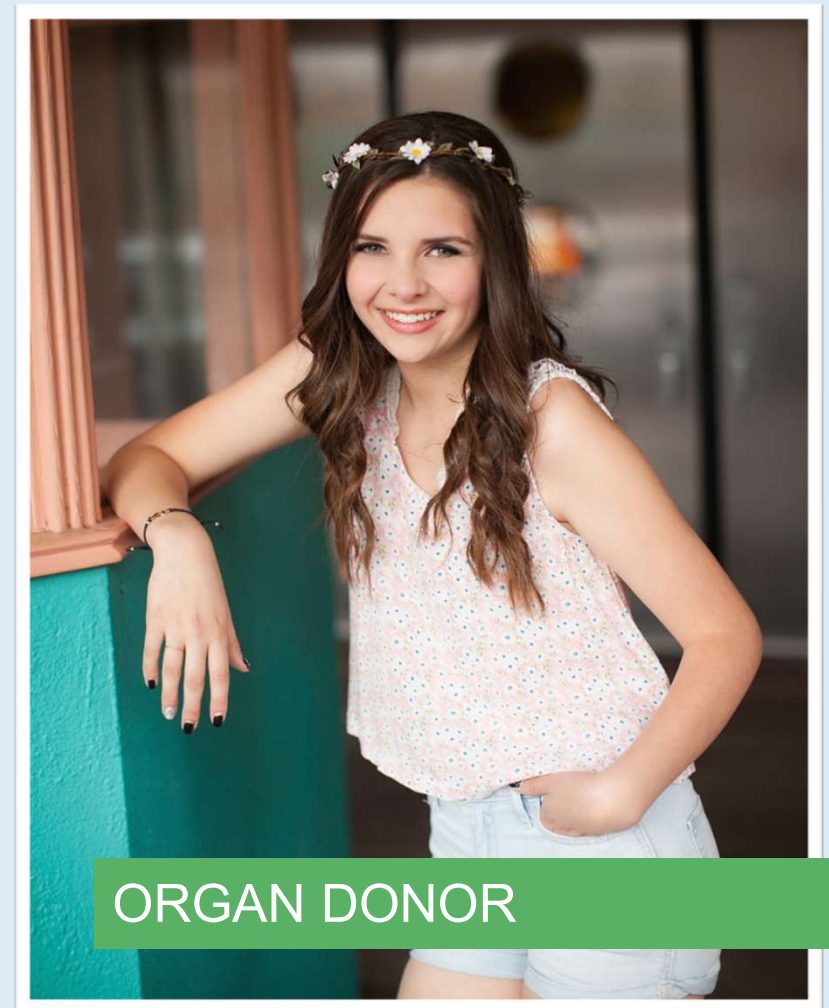

Zoe's Story

Zoe's loss was sudden, unexpected and devastating. In the midst of overwhelming grief, her parents made the selfless decision to donate Zoe's organs.

"Zoe loved to help, give and wipe away tears. Zoe went to Heaven; part of her stayed. We did not get to watch her grow up. We gave Zoe's organs to help save lives. Even from Heaven, our sweet Zoe wiped someone's tears away."

"The gentle care Zoe received allows her joy to live on. Thank you! The beautiful, inspiring work you do gives hope to donor families and recipients."

- Bob and Trena Mar, donor parents

Organ, Eye, & Tissue Donation

Less than 2%
of all deaths
have potential
for organ
donation.

REFERRAL PROCESS

The life saving and healing gifts of organ and tissue donation begin with a routine referral call.

HOW ARE WE MEETING THE NEED?

Donation Authorization

First Person Authorization

- Uniform Anatomical Gift Act (UAGA) will go into effect after death
- If the donor is registered and under the age of 18, then both parents must consent to donation.

Legal Next-of-Kin/Authorized Decision Maker

- If an individual is not registered, and there is potential for donation, the family will be given information to make an informed decision based on *their values and beliefs*.

Family Care During Donation

Donation & Family Advocates (DFA) work with hospital staff to continue to support families during the donation process.

- Determine the best timing for meaningful conversation
- Bereavement support & materials
- Heartbeat strips, handprints, Moment of Silence, etc.
- Funeral home arrangements
- Organ donation outcome & number of lives saved after recovery
- Location of loved one after recovery
- ***Continue to support the donor family after donation for two years***

Family Care After Donation

Donor Network of Arizona (DNA) will infinitely continue to honor the donor heroes and their family's generosity.

- Donate Life Day at the Diamondbacks
- Recipe Books
- 30 second video tributes
- Memorial Cards
- Quilt Pinning Ceremonies
- Donate Life Arizona Wall of Life
- Bringing together donor families and recipients
- Volunteer Opportunities

| Donation Facts

All major religions support donation

Donation should not delay or change funeral arrangements

Only DNA staff have access to the donor registry

An open casket is possible

There is no cost to the donor's family

In the U.S., it is illegal to buy or sell organs or tissue for transplantation
