

STEM Mentoring Scholarship Program

Presented By

Plymouth Canton Community School District,
Rotary Club of Canton and
Local Manufacturing

Program Sponsorship Opportunities

The Rotary Club of Canton is proud to offer you the opportunity to bring together private and public sectors with local business, community service organizations and our local community school district to participate in a program to identify and create interest in science, technology, engineering and math. We acknowledge that there exists today a shortage of engineers in industry. With our scholarship program and support of the Plymouth Canton Community School District we will identify qualified students and invite them into the program.

Platinum Sponsor: \$1500.00

- ◇ Logo & Company name listed as an event sponsor in press releases, social media, radio and all printed materials
- ◇ Premier seating for up to 8 guests at the Awards Ceremony.
