**Joe Chura**, the owner of Go Brewing, told the Chicago Tribune that when he and his wife decided to cut back on their alcohol intake, they found it nearly impossible to find a restaurant that offered quality non-alcoholic beverages. So in 2021 they opened Go Brewing, which features an array of alcohol-free small batch craft beers. Visitors can select among more than a dozen brews with names such as Prophets Hazy IPA, Jab Jab Grapefruit IPA, New School Sour Berry, Salty Lime AF Chelada, and gluten-free Freedom.

See you there!
