

MINUTARIAN from DG Deborah for the WEEK OF AUGUST 23, 2021

We are becoming Change Agents in regards to taking Clubs in a New Direction. Is your Club flexible and ready for the future? Rotary International has provided new resources on Satellite Clubs, Passport Clubs and Corporate Membership can help you create an experience that works for every member. These Membership options are located at **Rotary.Org/Flexibility** and we have a **District Innovative Club Advocate (ICA)** to assist you in the changes within your Clubs and Communities. In otherwords, **Club Innovation**: the Club is designed to offer a seamless transition for young professionals who want to advance their careers and their Rotary lives. Focused on networking and mentorship, the Club partners with other philanthropic organizations for volunteering opportunities, easing some of the organizational responsibilities of Club members.

D6890 has several Clubs that sponsor Satellite Clubs and they are quite innovative and willing to “Serve to Change Lives”. One Satellite Club’s primary focus is on multiple sustainable service projects in the 7 Areas of Focus. Another Satellite Club’s primary focus is Basic Education and Literacy and Support of the Environment. The other Satellite Club’s primary focus is Water, Sanitation, Hygiene and Disease Prevention and Treatment. So you see being a Change Agent within Rotary you can not only change your Club but you can change lives.

Thank you.

Yours in Rotary Service, DG Deborah L. Williams
