## IMPACT OF OUR TRIP

Miss Tina and her mom Pearl requested help for a leaking roof. What we thought was a shingle replacement became removing the entire supporting structure of beams and trusses. We did this work and provided a grateful Tina and Pearl a solid leak free roof for years to come.

We have an impeccable safety record in our 24 years working roofs, wheelchair ramps, indoor repairs, window replacements, etc) - and we continue to be energized to help the people of Mullens.
