 I would think "Fellowship" would be there also. I don't want to change times just to do a project!

Comments: *And we may serve dinner to needy or something as a project. Good!*
 Less of the people who just want us to donate \$ / Love it when we learn something via the presentation!

Additional feedback/thoughts/suggestions:

I wish we had more
of our 63 people attending
our meetings.

Esp. since we have
a "minimum" lunch of 20
people to pay Legion,

I do not understand
why people join, but
seldom participate in
club or activities.

- This meeting needs to be a hybrid for younger members who can't make it, people on trips - Need a IT lead.
- Some sort of expected attendance?
- Variety of topics with no solicitation for money. - Once in quarter, talk about a Rotary Projects, from House / Senate. Speakers from George Mason, from ~~campus~~ foreign embassy, from other Rotary clubs, - missed having the BQ in the summer, serve wine & cheese once. More socialization, theme "meeting" Need more fundraiser - but careful.

Connections: Consider events where invite partners/beneficiaries, snacks and coffee, members integrate and talk to them one-by-one to exchange ideas

- connections → relationship → community
- no agenda, just introduce selves (building connections i.e. went to same school)
- see migrant, find new ways forward
- meeting like this quarterly or so
 - help feel connected to where our \$ goes - 20 different organizations we give to
- not always just people already serve/partner with - also consider reaching out to others going forward
- let people make connections and let it run - creates ideas and individuals pursuing/taking charge of causes
- "people we support stop being beneficiaries and start being partners"
- also allows us to evaluate + make changes to who we support - add, subtract, strengthen
