

Transforming your gifts into service projects that change lives both close to home and around the world.

What impact can my donation have?

The Rotary Club of Asheville foundation works locally and internationally to support our community. We also empower other local non-profits with community grants to help them succeed.

Our key initiatives include supporting education through the awarding of scholarships to high school seniors, and supporting health initiatives like U.S. based Alzheimer's research and Global Polio eradication.

We are proud to recognize Buncombe County teachers annually as Teachers of Excellence, lift up our first responders by recognizing their achievements quarterly, and recognize our local heroes dedicated to the seven areas of Rotary focus.

Internationally, we lead projects for literacy in Guatemala, healthcare in Argentina, and dental and optical care in Honduras. Our all volunteer organization is actively involved in these projects and the work we do is funded by generous donations from supporters like you.
