

NEXT VISTA FOR LEARNING

Connecting through Video

Young people from around the world will create videos telling stories of their communities and those who serve them.

Join the project, and enter the contest!

www.nextvista.org/rotary

These videos will live in the free, online library at NextVista.org, allowing people around the world to connect with other communities and with possibilities for service.

Contest winners will receive plaques and donations to the service efforts of their choice.

Rotarians: please let Interact and Rotaract members know!

The Connecting through Video project is sponsored
by Next Vista for Learning and the Rotary eClub of the Southwest USA
