53 Years
John E. Kellogg
02-24-1983
42 Years

information about what your spouse takes? And who would be able to answer the question if you were unconscious? Deep questions for a Rotary Thursday for sure. At lunch on February 6th, Tony Jewell shared his horrific encounter with a concrete curb, and a wonderful friend he had made because of that encounter: Ben Huckaby, a Paramedic Supervisor from Sequoia Safety Ambulance. Ben introduced the Club members to the idea of carrying a "File of Life", a medical ID card in their wallets and purses. Ben said that EMT's are trained to look for these little ingenious pieces of paper when they are treating patients who may be unable to speak or are unconscious. Ben distributed these ID cards at the meeting. A huge thanks to Ben for these nifty cards, and an even bigger thanks to him for saving lives every day!
