We will be joined by Charles E. Davidson, Ph.D. who directs the school's Center for Peace Technology and heads the Rotary/Carter School Collaboration for Peace.?

"For decades, the Carters tirelessly walked in the shoes of the people they strived to empower, transforming countless lives in the process," Davidson says. "We teach our students to identify the underlying causes of conflict and equip them with cutting-edge theory and practical skills to put their knowledge into action, whether that be at the local, national, or global level."

"The Carters were trailblazers in peacebuilding and justice," said Alpaslan Özerdem, dean of the Carter School. We are furthering the Carter legacy in conflict resolution through our research and practice. His insight, passion, and love for peace will remain our inspiration in educating future peacemakers."

Please share this widely in your club newsletters and websites -- and beyond Rotary to your friends and other groups who might want to explore and further the work of the great President Carter.
