This week's program

The Fascinating Work of a GBI Forensic Artist Kelly Lawson

Kelly Lawson is an Atlanta native who traveled the world and decided to come back home to Georgia. She graduated from Brigham Young University with a bachelor's in the visual artist in 2007.

With a lifetime of observing the the impact that an artist can have in law enforcement, being the daughter of the highly esteemed Forensic Artist Marla Lawson, Kelly took over as the GBI's forensic artist in 2012. Since that time, she has made a name for herself around the world and continues to reinforce to the international forensic art community that the GBI is the premiere agency in that field.

She teaches artists from all over the unique "Lawson's way" of drawing, but her mission in life is to give names to the unidentified and help investigators bring justice to traumatized victims.
