### Science Hill Robotics Team

With a team of over 20 Science Hill High School students, Topper Robotics encourages teens to investigate the world of STEM: Science, Technology, Engineering, and Math. Throughout the year, the team competes in two major robotics organizations: VEX and First Robotics by crafting a robot and presenting it for various challenges. This year, the team competed in Kingsport, Pittsburgh, and Sevierville. Also, the club has a philanthropic mission: to care for both current and future generations. This year, the team organized projects to help hurricane flooding victims and created STEM opportunities for local elementary students. Our main goal for the club is to prepare students for real-world challenges faced by engineers, developers, and community leaders.
