### The fight against polio

India has been making great strides toward polio eradication in 2011, with only one case of the virus reported from January through early December. Rotarians helped administer bivalent oral polio vaccine to more than 35 million children in the country during a Subnational Immunization Day on 13 November.

On 20 November, a team of Rotarians from District 3700 (Korea) served in a health camp in Meerut, Uttar Pradesh, where children were immunized against the disease. The camp was organized by Indian Rotarians in cooperation with local health officials and **UNICEF**.

Rotarians also worked to get out the message about polio eradication for World Polio Day in October. In Australia, Rotarians and the [Global Poverty Project](#) carried out a petition drive to persuade world leaders to fully fund the critical work of the [Global Polio Eradication Initiative](#). Almost 25,000 supporters signed the petition, resulting in a A\$20,000 (US\$20,700) contribution to Rotary's US\$200 Million Challenge by the Rotary Club of Crawley, Western Australia, which had offered to donate A\$1 for each signature.

In Perth, the Global Poverty Project's End of Polio Concert on 28 October raised additional funds. The concert coincided with the Commonwealth Heads of Government Meeting in the city; Rotarians had teamed up with the group to urge government leaders to put polio eradication on the agenda. After the meeting, the governments of Australia, Canada, and Nigeria, along with the [Bill & Melinda Gates Foundation](#), announced a combined pledge of more than US\$100 million to support polio eradication efforts.
